

- NOTES:**
1. Close top end of Rest Posts with 1/4-inch diameter by 1/8-inch thick steel plate, form to fit and weld in place.
 2. Provide gate with retroreflective delineation consisting of vertical stripes alternating red and white at 16-inch intervals measured horizontally along the full width of the top horizontal bar on both sides.
 3. Mount one "Road Closed" sign on gates as shown. Center the sign over the lane carrying the incoming traffic.
 4. Place object marker after installation of rest post and ensure it doesn't interfere with the gate arm when in open position.
