The list should include any mitigations, permit conditions, or other commitments that were required or agreed to during environmental analyses, coordination, and consultation with relevant agencies.

## TTP Environmental Checklist/Categorical Exclusion

**SECTION 4: TYPE OF DOCUMENTATION: Use the information in this section to help determine the applicable documentation and clearance type for the project (CE, EA or EIS).** Please note that this is used for planning purposes only. The final decision for level of documentation is made by FHWA after consultation and coordination.

**A. Categorical Exclusions Defined (23 CFR 771.117[a]).**

FHWA regulation 23 CFR 771.117(a) defines categorical exclusions as actions which:

- do not induced significant impacts to planned growth or land use for the area;
- do not require the relocation of significant numbers of people;
- do not have a significant impact on any natural, cultural, recreational, historic or other resources;
- do not involve significant air, noise, or water quality impacts;
- do not have significant impacts on travel patterns; or
- do not otherwise, either individually or cumulatively, have any significant environmental impacts.

Checking this box certifies that project meets the above definition for a Categorical Exclusion (if not, an EA or EIS will be required).

**B. Unusual Circumstances (23 CFR 771.117[b]).**

FHWA regulation 23 CFR 771.117(b) provides that any action which normally would be classified as a CE but could involve *unusual circumstances* requires the Department to conduct appropriate environmental studies to determine if the CE classification is proper. Unusual circumstances include actions that involve:

- Significant environmental impacts;
- Substantial controversy on environmental grounds;
- Significant impact on properties protected by section 4(f) of the DOT Act or section 106 of the National Historic Preservation Act; or
- Inconsistencies with any Federal, State, or local law, requirement or administrative determination relating to the environmental aspects of the action.

**All of the above unusual circumstances have been considered in conjunction with this project.** (Please select one.)

Checking this box certifies that **none of the above conditions apply** and that the project qualifies for a Categorical Exclusion.

Checking this box certifies that unusual circumstances **are involved**. However, the appropriate studies/analysis have been completed, and it has been determined that the CE classification is still appropriate.

**C. Check applicable categorical exclusions from the drop-down menu(s) below. For full text of CEs, click [here](#).**

Select a Categorical Exclusion:

Write in additional Categorical Exclusion(s), if needed:

**D.** If categorical exclusions (c)(26), (c)(27), or (c)(28) were selected above, do any of the following circumstances apply?

**Yes**    **No**    **N/A**

- (1) An acquisition of more than a minor amount of right-of-way or that would result in any residential or non-residential displacements;
- (2) An action that needs a bridge permit from the U.S. Coast Guard, or an action that does not meet the terms and conditions of a U.S. Army Corps of Engineers nationwide or general permit under section 404 of the Clean Water Act and/or section 10 of the Rivers and Harbors Act of 1899;
- (3) A finding of "adverse effect" to historic properties under the National Historic Preservation Act, the use of a resource protected under 23 U.S.C. 138 or 49 U.S.C. 303 (section 4(f)) except for actions resulting in *de minimis* impacts, or a finding of "may affect, likely to adversely affect" threatened or endangered species or critical habitat under the Endangered Species Act;
- (4) Construction of temporary access, or the closure of existing road, bridge, or ramps, that would result in major traffic disruptions;
- (5) Changes in access control;
- (6) A floodplain encroachment other than functionally dependent uses (e.g., bridges, wetlands) or actions that facilitate open space use (e.g., recreational trails, bicycle and pedestrian paths); or construction activities in, across or adjacent to a river component designated or proposed for inclusion in the National System of Wild and Scenic Rivers.
