#### Construction Activities and Upcoming Work

This week, Interwest Construction, Inc. (ICI) continued delivering material for Engineered Log Jam (ELJ) construction. ICI's pile driving subcontractor, Gray Rock, finished installing the 24" driven steel piles at the new bridge at Tower Creek. ICI will be working on setting up operations to remove 2 of the existing bridge girders next week. Traffic is diverted to a single lane at Tower Creek with an automated traffic signal running 24/7. Please be cautious and aware over the next few weeks, there will be heavy truck traffic on Upper Hoh Road as cranes and heavy equipment are mobilized to and from the project while construction is under way.

#### Impacts to Traffic

- Travelers can expect Temporary Traffic Control Flaggers and or signals between MP 7 and MP 8 of Upper Hoh Rd
- Expect delays up to a total of 30 minutes per passage through the project corridor Monday through Friday from 8AM-5PM
- Olympic National Park and businesses along Upper Hoh Road will remain accessible at all times during construction.
