North Fork of the Flathead River Blankenship & Belton Stage Road Resurfacing

Project Description:

This project is being administered by the Federal Highway Administration Western Federal Lands Highway Division, in partnership with Flathead National Forest, US Border Patrol and Flathead County. The project will provide an improved travel surface and replacement of existing culverts on sections of Belton Stage Road, Blankenship Road, and the last 5 miles of North Fork Road and Glacier Drive between Polebridge and Polebridge Ranger Station in Glacier National Park.

Surface Conditions:

Current road conditions consist of existing aggregate surface course. There are sections of rough road within existing conditions.

Current and Upcoming Work:

On Blankenship Road, placement of recycled asphalt millings is nearing completion. Over the next few weeks, construction crews will place recycled asphalt millings on North and South Belton Roads and begin removing construction equipment and remaining materials from the project location.

On Glacier Drive near Polebridge, clearing, and grubbing activities are complete. Culvert installation is also complete. Over the course of the next few weeks recycled asphalt millings will be placed along Glacier Dr. before beginning surface work near Polebridge Mercantile.

On North Fork Road, culvert installation, survey, clearing, and grubbing activities have begun. The contractor will also begin processing surface aggregates at Whale Creek Pit.

Traffic Delays:

Partial width closures with a maximum of 30 minute delays should be anticipated when traveling within the project limits near Belton and Blankenship Road. There is potential for single lane traffic conditions within the North Fork Road closure. In-holders, authorized agencies, and emergency traffic are advised to comply with traffic control and yield to oncoming traffic.

Full closure of North Fork Road will continue until project completion near the end of October 2023. The closure is from Trail Creek Road to the Canadian Border.

Vehicles, motorcycles, and bicycles please use extreme caution when traveling through the project.
