## Construction Activities & Upcoming Work

Inland Crane, Inc. (ICI) completed base course of select fill and compaction at Abutment 1. They completed installation of Micropile caps, collars and rod extensions and began installation of the horizontal drainage pipe at the soil nail wall. The completed survey of Abutment 1 limits for the formwork layout.

ICI moved equipment and materials for installation of formwork and reinforcing steel for Abutment 1.

The Salmon River Roadway will continue to be a single lane at the crane tower, concrete barrier is installed to protect the public and project site. The speed limit continues to be 15mph thru this area during the 2024 Construction Season.

**Please Use Caution** when traveling and be aware of oncoming traffic, during day, night, weekdays, and weekends. Thank you for your cooperation and understanding.
