Contractor:

Riverside Contracting, Inc.
5571 Alloy South
Missoula, MT 59808

Notice to Proceed:

04/1/2024

Fixed Completion Date:

9/30/2024

Project Description:

This project will rehabilitate the Warman Loop Road, including minor drainage improvements, installation of a box culvert at Warman Creek, subgrade stabilization and new asphalt surfacing of the roadway.

Project Staff:

Matt Poppe
Sean Yeates
April Graham

U.S. Department
of Transportation

**Federal Highway
Administration**

Current Construction Activities:

July 19, 2024

Pavement pulverization for Full Depth Reclamation, the first stage of recycling asphalt to re-pave the same area, was completed this week. Traffic control existed where work was conducted.

Upcoming Construction Activities: Work will progress in preparation for the paving that will occur in a few weeks. In addition, existing culverts will be cleaned to ensure proper road drainage. Culvert cleaning is a regular task that is essential to the long-term protection of road beds, ditches, banks, and embankments.

Above, the contractor begins pavement pulverization on Warman Loop Road. The pictured machine performs cold recycling for asphalt as well as soil stabilization.

Work Schedule:

Monday- Friday, 6:00 am - 6:00 pm

Delays and Closures: (Please have patience during construction)

Delays: Alternating, flagger-controlled, single lane closures can be expected between 6 am and 6 pm, Monday through Friday.

Road Closures: None expected.
