Great Falls, MT 59405

Project Partner:

Big Horn County, Montana

Contractor:

Riverside Contracting, Inc.
5571 Alloy South
Missoula, MT 59808

Notice to Proceed:

04/1/2024

Fixed Completion Date:

9/30/2024

Project Description:

This project will rehabilitate the Warman Loop Road, including minor drainage improvements, installation of a box culvert at Warman Creek, subgrade stabilization and new asphalt surfacing of the roadway.

Project Staff:

Matt Poppe
Sean Yeates
April Graham

U.S. Department
of Transportation

**Federal Highway
Administration**

Current Construction Activities:

July 26, 2024

Soft spot repairs began consisting of several 18” sub excavations. All soft-spot locations were identified and are being fixed. Fine grading of the full depth reclamation (FDR) (9”) will be complete this week. The full-depth reclamation process pulverizes and blends all layers of an existing asphalt pavement, thus, recycling the worn-out road surface.

Upcoming Construction Activities: Excavation for the 9’, precast-concrete box culvert will occur according to construction specifications. The precast structure will serve to convey storm water, protecting the roadway and ditches. As well, culver cleaning is upcoming.

Images by: S. Yeates

A roadway soft spot is repaired through sub-excavating the area, layering geotextile, and topping with select borrow. After compaction, the soft spot will be ready for base aggregate, so paving can proceed.

Work Schedule:

Monday- Friday, 6:00 am - 6:00 pm

Delays and Closures: (Please have patience during construction.)

Delays: Alternating, flagger-controlled, single lane closures can be expected between 6 am and 6 pm, Monday through Friday.
