1220 38th St N
Great Falls, MT 59405

Project Partner:

Big Horn County, Montana

Contractor:

Riverside Contracting, Inc.
5571 Alloy South
Missoula, MT 59808

Notice to Proceed:

04/1/2024

Fixed Completion Date:

11/6/2024

Project Description:

This project will rehabilitate the Warman Loop Road, including minor drainage improvements, installation of a box culvert at Warman Creek, subgrade stabilization and new asphalt surfacing of the roadway.

Project Staff:

Matt Poppe
Sean Yeates
April Graham

U.S. Department of Transportation

Federal Highway Administration

Current Construction Activities:

October 25, 2024

This week, we are focused on paving operations, including the final, bottom lift patching and the completion of asphalt paving.

Upcoming Construction Activities:

Next week, contractors will be finishing up paving operations, conduct shoulder grading to prepare the road shoulders for proper drainage and safety, along with the finalization of driveway access points. Following this, we will install permanent striping to enhance navigation and safety, as well as permanent road signs to guide drivers effectively. Finally, a thorough site cleanup will conclude the project, ensuring a tidy and safe environment.

Images by: S. Yeates

On-site progress: A roller compacts the asphalt on one side of the roadway, while the other side showcases the prepared aggregate roadbed, primed for its upcoming asphalt layer. This process sets the stage for a durable and well-structured road that will serve the community for years to come.

Work Schedule:

Monday- Friday, 6:00 am - 6:00 pm

Delays: As roadway striping and signing operations are set to commence next week, an alternating one-way traffic pattern and/or a full-width closure of Warman Loop Road will be implemented to facilitate the necessary work, allowing and encouraging access exclusively for local traffic while ensuring the safety of all road users during this period of construction.
