Notice to Proceed:

January 24, 2023

Fixed Completion Date:

November 30, 2026

U.S. Department
of Transportation

**Federal Highway
Administration**

Project Description:

Utilizing Great American Outdoor Act Funding the Yellowstone River Bridge project includes constructing a new bridge over the Yellowstone River, a new alignment to the bridge approach, expansion of picnic areas, and additional parking at various trailheads.

Road Conditions:

The road surface is milled pavement and compacted earth. Extreme caution should be used by motorist, particularly during wet weather conditions.

Temporary traffic control signs are utilized at all active construction locations to ensure public safety.

Current and Upcoming Work:

The pouring of bridge deck sidewalk concrete is nearing completion. Guardwalls are being formed and poured in preparation for stone façade. Stone masonry of the wingwalls has begun. Milling of the existing road surface is completed to provide a recycled asphalt base prior to paving. Additional earthwork is underway to complete the realignment of the road in preparation for paving.

Traffic Delays:

Work on the road alignment are resulting in minor traffic delays not to exceed 30 minutes. Flagger and a pilot vehicle are being utilized as needed. Drivers are reminded to exercise caution near construction access roads. As the project approaches paving later this fall additional traffic delays will occur.

2025 Construction Milestones:

Completion of Abutments—In Progress

Girder Erection—Completed

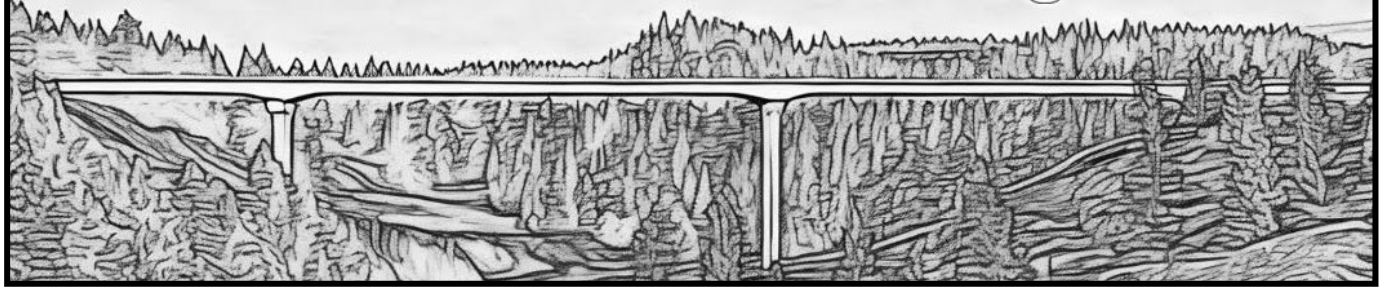

Bridge Deck—Completed

Road Realignment—In Progress
